Relay board 10 A

KDH-V10/4RB (V-10/4RB)

Device Type	Relay board 10 A
Description	Relay board increases the functionality of the network I/O module KDH-V1000/IOM with 4 additional relays
Normal load current AC1 category	10 A / 240 VAC
Normal load current DC1 category	15 A / 24 VDC

In spite of that relay can switch AC voltage 240 VAC 10A, board itself is not designed to work with this voltage and current.
